

Baby Timmy!

"Good" because she always behaves, is good natured, and does not complain. She likes classical music. She also knows her ABCs and likes to play with the computer. Witty and pretty describes Leslie.

Jason Patrick Santos Laico is six years old and is in first grade at Queen of All Saints Catholic School. He is Kuya Jason. He likes to play rough with Leslie all the time but sometimes Leslie ends up crying. He also likes his baby brother so much that he kisses him until the baby's face is full

(She passed away while we were there.) Mama Santos was able to see Baby Timmy and carry him. Jason and Leslie loved riding the big airplanes. They had fun with their headsets and kids meal onboard. They especially liked the new Hongkong airport which was very big.

While we were in Manila, we had Baby Anthony baptized. Tito Edwin Villanueva was the Ninong and his Tita Aurie Santos-Elepano was the Ninang. The kids enjoyed playing with their cousins, visiting the titas and titos, and going to the malls. They especially liked Jolibee's happy meal because of the animalinks toys.

LL

by CAROL LAICO

PITTSBURG, CA - Anthony James Santos Laico (Baby Anthony or sometimes Baby Timmy) was born on June 26, 1998. At 3 pounds and 14 ounces, he weighed about a pound heavier than his big sister, Leslie. He was so tiny that we were calling him Peanut the first few weeks. He is the youngest of the apos (grandchildren) and is younger than most of the great-grandchildren. That alone is a young talent by itself. He charms everyone with his precious smile. He also likes to do duet whenever his mom sings to him. He now weighs 14 pounds and is becoming heavier and more *gracioso* each day.

Leslie Santos Laico is now four years old. She is our big little very good girl - "big" because she is quite mature for her age, very responsible, and Ate Leslie to Baby Anthony. She is our nanny's assistant in taking care of the baby. "Little" because she is only 33 pounds and still uses a car seat. We keep telling her to eat more otherwise she'll use a car seat forever.

of his *laway*.

An achievement of his was that he graduated from kindergarten at King's Valley Christian School with honors. His kindergarten teacher told everyone on their graduation day that Jason is so quiet, but don't let him fool you because he's very smart.

I don't know how original this is, but he also has an expression, What da? when something suddenly catches his attention. A more obvious talent is that he could bike with no training wheels on a 12-inch wheel bike, before he was 5 years old. This summer the kids traveled with us to the Philippines to visit Mama Santos who was very ill.

Leslie and Jason  
like the new Hongkong Airport!
